PROFILE

Product Designer specializing in design systems, interaction design and B2B SaaS. Fluent in code and closely aligned with engineering teams, I turn complex workflows into clear, usable interfaces that serve both users and business goals.

PROFESSIONAL EXPERIENCE

Product Designer , Celonis	09/2019 – present
- Designed and shipped 60+ reusable UI components in Figma and HTML/CSS/SASS for the Celonis platform, and led motion design that lifted page engagement by 20%. - Scaled the design system across 3 products and 4 teams, cutting design-to-dev handoff time by ~30% and making UI consistent everywhere. - Partnered with PMs and engineers in 3 agile squads to launch features, redesign key UX workflows and improve site load speed by 40%. - Built interactive prototypes in Figma and code to validate ideas with stakeholders, cutting revision cycles by ~40% before development. - Ran 12+ usability tests and A/B experiments on key user flows, design iterations that raised conversion by 18%.	
Web & Product Designer , Open Data Kosovo	04/2017 – 08/2019
- Designed and built civic-tech websites focused on usability and accessibility (WCAG AA), reaching 50K+ monthly users. - Delivered product design for open-data platforms: wireframes, 40+ UI components, responsive layouts and the first design system foundations. - Produced visual assets for campaigns and public launches, helping grow event attendance by 35%.	
Graphic Designer , Innovation Center Kosova	08/2016 – 03/2017
- Created brand identities for startups and tech events. - Designed 150+ marketing visuals, growing event registrations by 25%. - Built a shared brand toolkit used across 5+ channels.	

EDUCATION

Computer Science & Engineering , University for Business and Technology	06/2011 – 11/2013
--	-------------------

CERTIFICATES

Foundations of User Experience (UX) Design  Coursera, 2021	Human-Computer Interaction  Interaction Design Foundation, 2018
Design Thinking for Beginners  Interaction Design Foundation, 2018	User Experience for Beginners  Interaction Design Foundation, 2017

SKILLS

Product Design User-Centered Design, Interaction Design, Information Architecture, Design Thinking, Responsive Design	UI & Visual Design Design Systems, Component Libraries, Prototyping, AI-Assisted Prototyping, Wireframing, Visual Design, Motion Design
Collaboration Agile/Scrum, Design Handoff, Cross-Functional Collaboration, Stakeholder Communication	Research & Evaluation Usability Testing, A/B Testing, Heuristic Evaluation, Analytics (GA4), KPI Definition
Tools & Software Figma, FigJam, Framer, Webflow, Adobe Creative Suite, Figma Make, Claude, ChatGPT	Development HTML, CSS/SASS, JavaScript, Tailwind, AI coding
